

AOS Orwell is committed to reducing impacts on the environment. We are resolute to improve environmental performance, by reducing our Carbon emission on the environment. Our commitment to the environment extends to our customers, our staff and host communities.

The ultimate aim of AOS Orwell is for a 0% Carbon balance to be achieved in all operations. Top management is committed to driving this policy and providing all needed resources.

Our Carbon Footprint Reduction strategy is aligned with our Company Environmental Policy, all applicable environmental legislations, best practices and recommendations from Stakeholders.

AOS Orwell Carbon Emission Reduction Commitment:

- Reducing waste - initiate recycling and repairing system on our generated waste.
- Energy efficiency - using less energy to perform task.
- Renewable energy - use of direct energy from natural sources.
- Fuel efficiency in transport & logistics - working towards using gas vehicles.
- Forest conservation - planting of trees and flowers.
- Collaborate with communities - to partner with AOS Orwell on Carbon Emission Reduction.
- Continuous monitoring and feedback.
- Public awareness and education - we are determined to carry out public campaigns on Carbon Emission Reduction.

We are determined to contributing to Carbon Emission Reduction by operating in an environmentally friendly and sustainable way.
