Services for
Well Delivery

Discover AOS Orwell

AOS Orwell is a proven leader in upstream oilfield services, delivering consistent operational excellence across well construction, project management, and field execution. With decades of experience, we bring unmatched expertise in well delivery—drilling, completion, and intervention—combined with deep local knowledge and regulatory alignment. Our strong in-country presence, technical capacity, and OEM partnerships make us a trusted partner for clients seeking reliable, end-to-end execution with full local content compliance.

With a strong track record in delivering wells on time and on budget, we offer turnkey well delivery solutions tailored to the unique needs of oil & gas operating companies. We promise faster timelines, lower risk, and full local content and safety compliance, so you can focus on getting to first oil and production increase, faster.

Customer Centric

Our Customers are always at the center of all we do.

Experience

Over 37 years of business and technical experience in the Nigerian Oil & Gas sector.

World-class Facilities

Our facilities have been built to world class standards.

Quality Service Delivery

Focus on exceeding customers expectations always

Renowned OEM Partners

We partner with WorldClass OEMs to deliver excellently to our clients

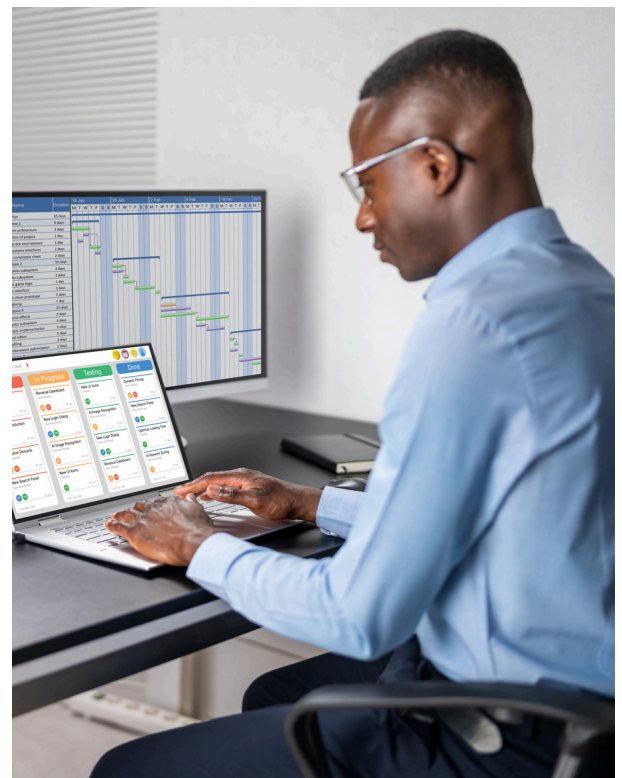

Proven leader in upstream oilfield services, delivering consistent operational excellence across well construction, project management, and field execution.

Over 4 decades of experience of unmatched expertise in well delivery—drilling, completion, and intervention—combined with deep local knowledge and regulatory alignment.

Our strong in-country presence, technical capacity, and OEM partnerships make us a trusted partner for clients seeking reliable, end-to-end execution with full local content compliance.

With a strong track record in delivering wells on time and on budget, we offer turnkey well delivery solutions tailored to the unique needs of oil & gas operating companies.

We promise faster timelines, lower risk, and full local content and safety compliance, so you can focus on getting to first oil and production increase, faster.

Seamless project planning, real-time monitoring, and expert management—driving every well to success.

Our Management

Akeem Ariyo, Managing Director

Brings over 30 years of global experience in the oil and gas sector. Has held senior roles in Schlumberger across operations, sales, and executive management.

Our success in delivering world-class IPM and Turnkey solutions is driven by an experienced leadership team with deep industry expertise.

Each member brings a wealth of knowledge in well construction, project execution, and operational excellence, ensuring that every project is delivered on time, within budget, and to the highest safety and quality standards.

From strategic planning to on-the-ground execution, our management team works closely with clients to understand their objectives and translate them into practical, efficient, and sustainable solutions.

This commitment to collaboration, transparency, and technical excellence is the foundation of our track record and the reason clients trust us with their most critical projects.

Our Vision

To be a dependable partner, delivering world-class solutions to the energy industry.

Our Mission

To be the technical and operational partner of choice for international oil companies, national oil companies and independents operating in Africa.

Our Core Values

Excellence - Honesty & Integrity - Customer Focus - Innovation

Anthony Nwosu, Country Director, Well Construction Division (WCD)

Brings close to 30 years of professional experience in the oil and gas sector. He has held leadership roles at Baker Hughes, a GE Company and Baker Hughes INTEQ. His career demonstrates strong commercial acumen and strategy with exposure to business operations in Gabon, Ghana, South Africa, Qatar and Nigeria.

Onochie Onyetenu, Chief Sales & Marketing Officer

A seasoned oil and gas executive with over 30 years of world-class experience spanning tubular running services, business development, client account management, contracting, procurement, sales, operations, and executive leadership in the industry.

Kennedy Opene, Deputy Country Director, WCD

A chartered accountant with 20+ years' experience in oil and gas finance, including roles at consulting firms and energy organizations. He will oversee financial planning, budgeting, rig procurement accounting, and funding strategy. Leads cost control, contract finance management, and ensures regulatory compliance. Supports investment structuring and stakeholder financial reporting.

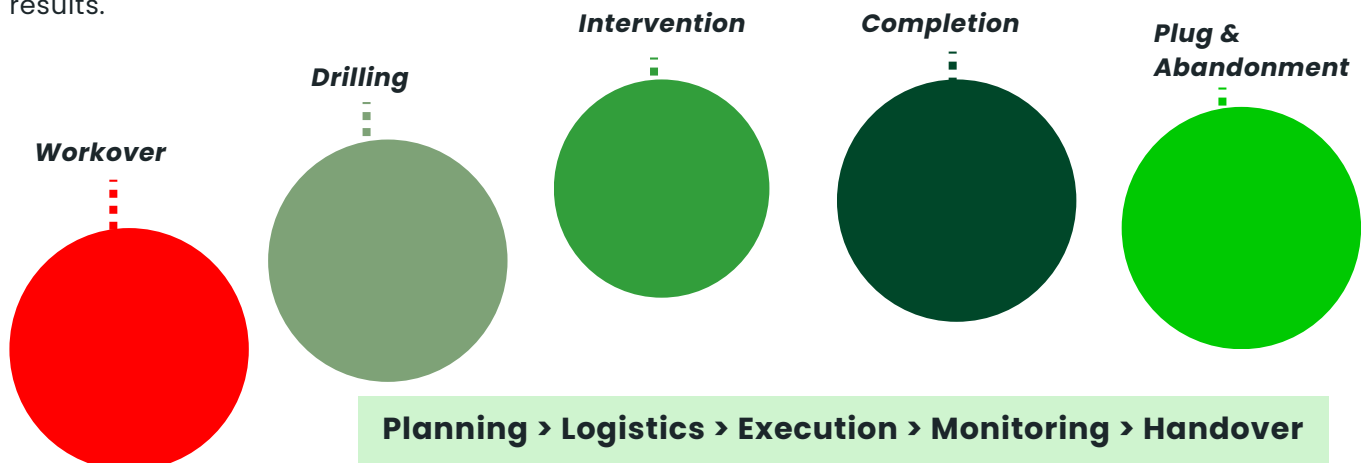

Wali Adedotun, Head, IPM & Turnkey Services, WCD

Wali is a PMI-certified Project Management Professional with two decades of global experience in the oil and gas industry, specializing in asset management, field development, well construction, and drilling and completions engineering.

Our Solution

At AOS Orwell, we offer a unified approach to well delivery—combining Integrated Project Management, Turnkey Execution, and Bundled Services to give you a single point of accountability from start to finish.

From strategic planning and precise procurement to flawless execution and performance optimization, our IPM model ensures every stage is expertly coordinated. Through our Turnkey solutions, we take full responsibility for delivering your wells end-to-end—on time, on budget, and to the highest global standards. And with our Integrated Bundled Services, you get a tailored package of solutions designed to maximize value, reduce complexity, and deliver measurable results.

Our strength lies in proven operational delivery, backed by years of consistent results across complex well projects. With deep in-house capability spanning engineering, project management, and field execution, we control quality at every stage.

Through strategic partnerships with leading OEMs, we provide direct access to the latest technology and expertise, reinforced by a network of international support for specialized needs. Clients also benefit from our structured project funding solutions, enabling efficient project execution without financial bottlenecks. And with our transparent performance reporting, you have full visibility of progress, milestones, and value delivered—every step of the way.

Our Partners

We work hand-in-hand with world-class Original Equipment Manufacturers (OEMs) to deliver proven technology, unmatched reliability, and tailored solutions to our clients. These strategic alliances ensure direct access to genuine products, expert technical support, and cutting-edge innovations—strengthening our ability to execute projects to global standards while meeting local needs.

We collaborate with leading global partners and Original Equipment Manufacturers (OEMs) whose expertise spans drilling rigs, directional drilling & measurements (D&M), completions, and drilling fluids. These partnerships give us direct access to the latest technologies, genuine tools, and specialized support—empowering us to deliver efficient, high-performance solutions that meet global standards while addressing local challenges.
