

JOURNEY MANAGEMENT POLICY

AOS Orwell Limited Journey Management policy is developed to ensure that all journeys are authorized and any risk to health, safety or the environment is identified, risk assessed and managed to as low as reasonably practicable.

This policy also provides the following criteria for managing all the journey.

- All journeys must be planned, documented, executed and managed in a safe manner to the final destination.
- All inter-state journeys must be escorted by armed security personnel (GSF)
- All journeys must be planned to start not earlier than 6:00am and interstate journeys cannot commence after 4:30pm. Night driving will only be approved by MD or any EMC team member.
- All vehicles should be inspected prior to commencement of journey by QHSE team
- Drivers should hold a valid driver's license for the class of vehicle driven and must be physically, mentally and emotionally fit before embarking on a journey.
- Strictly adhere to all safety regulations, and applicable national standards.
- Follow the journey plan unless it becomes unsafe to do so.
- All road accidents must be reported according to AOSO incident procedure.
- Seat belt, Alcohol and Drug policies are to be strictly complied with.
- Drive within national speed limit considering safety and the weather conditions.
