

MALARIA CONTROL POLICY

OBJECTIVE:

To achieve a goal of zero cases of malaria in non-immune and zero serious cases in semi-immune personnel populations.

SCOPE:

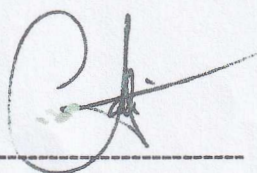

It covers all AOS Orwell personnel and sub-contractors who work or travel to malaria endemic area.

POLICY:

All personnel travelling or working in Malaria endemic areas should be aware of ABCD (Awareness, Bite Prevention, Chemoprophylaxis use and early Diagnosis) of the malaria program.

Completion of attestation form and compliance to use of chemoprophylaxis is a criteria for working in malaria endemic area.

All personnel working in malaria endemic areas are subject to random testing at any time and shall be treated by medical expert if confirmed positive.
